Comments from people we have trained.

From Face Book

I took my training here (at Martins Safety) today through the company I work at and got on the forklift for the first time, the trainer was extremely reassuring and knew his stuff, made me feel comfortable to get on and do it. the owner showed up and was talking with everyone as well. very welcoming place and experience. I have taken 3 courses here with Joel (trainer) in the last 3-4 weeks. Joel has been great, very knowledgeable and definitely a great instructor to learn from. Had some fun with him as well Ryan
